

2017 Aldermanic Menu Vote

Introduction

Each year, aldermen are allotted \$1.32 million through the Aldermanic Menu Program. The funds must be spent on a menu of options provided by the City of Chicago for infrastructure improvements. To see that menu of options, please visit chicago47.org/projects/menu. These items typically include street resurfacing, alley resurfacing, sidewalk replacements, curb/gutter repairs, street light upgrades, pedestrian safety improvements, etc. After receiving block audits and project suggestions from 47th Ward residents along with data from the City's 311 system, we have compiled a list of possible menu projects for 2017.

On the next page, you will be asked to indicate which projects you support for the 2017 menu. You may vote for as many or as few of these projects as you would like. This vote is NOT binding and the list that follows does not represent the ONLY possible projects; it simply reflects issues identified in block audits, calls/emails, and projects from prior years that were not previously authorized. Your vote will help Ald. Pawar make decisions regarding the need for projects listed here. The 47th Ward staff will also be surveying the ward to identify areas most in need of improvements this year before submitting requests to the City.

To verify your identity, we ask that you provide your name and address. Additionally, we will require that you include your phone number or email. Please complete this survey only once.

If you have any questions, please contact Jim Poole in the 47th Ward Office at 773-549-4462 or jim@chicago47.org.

* 1. Are you a resident of the 47th Ward?

Yes

No

2017 Aldermanic Menu Vote

2017 Possible Menu Projects

Recently authorized projects are not included in the lists below; these will be addressed shortly. Please note that some blocks may be scheduled for a water main replacement project in the near future; in these cases, restoration includes street resurfacing.

10. Indicate which Alley Resurfacing projects listed below should be done as part of the 2017 Aldermanic Menu Program in the 47th Ward. Estimated Costs: Alley Resurfacing=\$49,500 per block (costs vary by the scale of work)

I Support This
